

Simply Manage All Student Devices and Content

Mobile Device Management

Kajeet helps school districts manage countless student mobile devices with a powerful and easy-to-use, centralized platform. Create and monitor a safe and secure digital environment for student devices on multiple operating systems.

Partnering with **Mobile Guardian**, Kajeet offers a **complete solution to manage all student devices**, which supports safe, collaborative classroom learning while giving the school district total oversight into devices, content, and student use.
