

Extend the Classroom to the Bus

Kajeet SmartBus™

Turn travel time into instructional time. Kajeet extends the classroom and helps improve student behavior, and overall safety, by providing more than just Internet on the school bus.

WI-FI EQUIPPED BUSES:

- Provide additional time for studying and homework.
- Reduce behavior incidents.
- Improve driver focus and safety by reducing distractions.
- Add learning time while traveling to school or sporting events.

More Than Just Internet

The Connected Bus

Today's school bus is well connected, with telematics to GPS, and anything in between. The **Kajeet SmartBus™** solution simplifies that process with the ability to connect all technologies – and students – that require Internet access. Save money and expand capabilities for any Wi-Fi enabled solutions.

Here's how Kajeet provides the access school districts need to keep moving forward in the connected world.
