

BRAND COMPATIBLE, UL CERTIFIED 45W / 65W USB-C ADAPTERS

Our 45W & 65W adapters are produced by leading manufacturers of AC adapters for most major Chromebook brands. While these adapters are not OEM branded, they are ODM (Original Design Manufacturer). This means these adapters are 100% authentic, UL certified, and use the same parts and components as the OEM.

Adapters are high-failure parts. You need a warranty that can withstand the demands of student life. All adapters we carry come with our unbeatable one-year warranty (compared to 90 and 120-day warranties you may see from our competitors).
